

Good Morning!

I know this is not what we expected today; however, we're going to make the best of it. 😊

Below are your assignments for today. If you are unable to complete them due to not having internet access, your parents need to email me **immediately** at mloftis@bellecreekcs.org. I will be checking to see if you have completed these assignments, and they will count toward your 4th quarter grades.

Math:

20 minutes on Khan Academy-start where you left off. I know you (probably) don't have your recording sheet, so please use the Google Form I've created to list what you worked on and the score you received. Please write your scores in this format:

Counting 100/100

Adding/Subtracting 80/100

Fractions 100/100

<https://forms.gle/YskbjG8Bkci7mXMD7>

[Khanacademy.org](https://www.khanacademy.org)

You will also need to complete the assignment on reading & creating line plots on Edulastic titled "March 13, 2020". It is due by Monday, just like your worksheet would be. This can be accessed through our Google Classroom or directly through the Edulastic site.

app.edulastic.com

Literacy:

Read and answer the questions on the article titled "The Renaissance-Renaissance Italy" posted in Read Works. It can be accessed through Google Classroom or directly at the site. It is due by Tuesday, March 17.

[readworks.org](https://www.readworks.org)

Next, watch the videos on Khan Academy over prepositions, prepositional phrases, and correlative conjunctions (words that work in pairs to connect parts of sentences). These can be found in your Assignments, but if you can't find them there, you can search for them in the Search bar. Do the practice problems, and then go back to Edulastic and do the assignment titled "Practice Prepositions and Prefix -ex". These two tasks are due Tuesday, March 17.

Science:

Go to EdPuzzle and watch the video on the geosphere and biosphere (yes, we've already watched it once in class). Answer the questions and click submit when you are finished. If you don't submit by Tuesday, March 17, it will be counted as a 0.

After this, go back to Edulastic and complete the "Earth's Spheres" review. It is also due by Tuesday, March 17.

edpuzzle.com

Social Studies:

Continue working on your Transportation Presentation. We will present when we return to school.

That's it for now! Please take this seriously, as these next few days are not counted as part of Spring Break. I will send more work on Monday, Tuesday, and Wednesday next week. Please take care of yourself, and I hope you have a good weekend!
