

Vocabulary Cards

You will be creating 5 vocabulary cards, one card for each word assigned this week! You were given 5 index cards at the beginning of the week! If you lose these cards, don't worry! Create your own cards from notebook or copy paper.

Use the patterns below. You do not need to write the instructions on the card! Simply follow them!

On one side of the note card, draw a color picture representing the vocabulary word.

On the other side of the card:

- write a definition (in your own words)
- give a synonym (means the same) for the word
- use the word in a sentence
