

## **Star of the Week**

Each student in our class will take a turn being the Star of the Week. During their special week, students will have the opportunity to share about themselves by completing an informational sheet, bringing in special pictures and mementos, and even sharing their favorite book and music with the class.

For one day during your child's week to be the Star, they will also get to eat lunch in our classroom with two of their friends. These may be two friends from our class, or one friend from our class and one from another class. The students can bring their own lunches from home or get the school lunch. You may also bring a special treat for them. Our lunch time is 11:40-12:15 every day. After the Star and his/her two friends eat lunch in the classroom, they will then have the choice of playing indoor games in the classroom for their lunch recess or going outside for recess as they normally do.

Thanks for your help in making your child's week of being the Star exciting and successful! Our class looks forward to learning more about each other through this fun program!
