Is being left handed a family trait?	<a href="http://www.scientificamerican.com/article.cfm?id=what-causes-some-people-t">http://www.scientificamerican.com/article.cfm?id=what-causes-some-people-t</a> Left handed people are produced by biological and, most likely, genetic causes.	Research reveals that left-handedness is actually more common in the male population than in females. <a href="http://www.buzzle.com/articles/myths-and-facts-about-left-handed-people.htm">http://www.buzzle.com/articles/myths-and-facts-about-left-handed-people.htm</a>	<a href="http://www.anythingleft-handed.co.uk/children/chance-lh-child.html#sthash.1W42wv0E.dpbs">http://www.anythingleft-handed.co.uk/children/chance-lh-child.html#sthash.1W42wv0E.dpbs</a> About 10% of the world's population are left-handed and it seems that left-handedness runs in family.
What is memory?	<a href="http://www.dictionary.com/memory">www.dictionary.com/memory</a> A person's power to remember things.	<a href="http://psychology.about.com/od/cognitivepsychology/a/memory.htm">http://psychology.about.com/od/cognitivepsychology/a/memory.htm</a> Store, retain and later retrieve information is referred to the memory.	<a href="http://www.human-memory.net/intro/what.html">http://www.human-memory.net/intro/what.html</a> All the things that we remembered, that helps us learn.
Left side of brain v.s. right side of the brain	<a href="http://www.wherecreativitygoestoschool.com">http://www.wherecreativitygoestoschool.com</a> The right side of your brain controls the left side of your body. The left side of the brain controls the right side of the body.	<a href="http://psychology.about.com">http://psychology.about.com</a> Right - brained people tend to be more creative while left brained are more logical.	<a href="http://www.angelfire.com">http://www.angelfire.com</a> When a person is right brained, people believe they are dreamers, artists, and musicians. On the other hand people are left brained they tend to like classical music, and like verbal instructions.
