

Dear Parents:

I regret to inform you that yesterday we had an incident in our preschool in which a child had an allergic reaction after eating a snack. We are grateful that after treatment the child is unharmed.

We take this matter very seriously. We have a strict allergy policy in place and we consider any lapse in that policy to be unacceptable. The safety of our students is our paramount concern.

We have already begun to investigate the facts of this matter fully. We are reviewing our allergy policies and the enforcement of these policies to ensure that all students with food allergies are safe within our school at all times.

I will be re-emphasizing our allergy policies and providing additional information very soon. In the meantime, I am available to discuss these matters with any parents who have immediate concerns.

Sincerely,

Mrs. Laura Clark
Principal
Saint Joseph School
