

How Does Time of Day Affect the Positions of Constellations? (Optional Challenge Activity)

The 2-3 optional investigation questions (p. 653) need to be answered completely and correctly.

Constellation wheel must be complete and submitted with a reflection of the activity. Take the wheel outdoors with parental supervision or permission to locate the constellations shown on the wheel. Repeat the activity the next hour.

Write a paragraph about the results. Describe your surroundings and your findings in complete sentences.

Illustration must contain details about the location of the activity
